Orange, CA 92867

HOW CAN YOUR  
CHURCH MINISTER  
TO CHILDREN?

## Childcare with EC Pros!

Early Childhood Professionals is a national professional services organization with the tools you need to build a new childcare facility or improve an existing one in your church. Here are some ways we can help:

- Determine the feasibility of a center on your campus;
- Write a business plan;
- Support accreditation, marketing, admissions, staffing and financial management of your center; and
- Assist with program development, curriculum selection and outreach.

Any church can build a center with the right kind of support.

## The Impact!

When a church gets involved in childcare as a ministry for its community, children are nurtured, parents are given assurance of their children's welfare in a Christian setting, the community is served, and the love of God is made real to many people in many different ways.

Call us to talk about how childcare can make a difference in your church and community.

## "Strengthening Families, Strengthening the Church"

Here are some questions for your congregation to think about concerning childcare as a ministry:

- Does the church want to get involved in the lives of the families in its community?
- Does the church have a heart for ministering to children?
- Does the church need professional support to build a great childcare program?

## What do you need? We can help!

- Start-up Success (*for new centers*)
- Management Effectiveness
- Admissions Success
- Leadership Confidence
- Staff Development
- Christian Outreach

## Who We Are

EC Pros grew out of years of building, transforming and managing early childhood development centers around the country.

Here are some of our testimonies:

- *Our consultant is an amazing woman. She is one of the nicest and most knowledgeable people in early childhood education and administration I have ever met. Thank you so much for sending her. Erin H., preschool director*
- *We were very encouraged by the consultant's report. He was a delight to work with. We felt that he really understood what we were looking for. Pastor Benson*
- *The consultant had wonderful insights concerning our situation and she was an excellent teacher for our leadership board. Pastor Gee*

Let us be a part of your ministry to children too.
